EDUCATION

2023 – 2027

SRI LANKA INSTITUTE OF INFORMATION TECHNOLOGY (SLIIT)

BSc (Hons) in Information Technology
Specializing in Information Technology

2019 – 2021

G/KARANDENIYA CENTRAL COLLEGE

GCE Advanced Level, Physical Science
Stream (Mathematics)

CERTIFICATES

- Web-Design For Beginners – university of Moratuwa
- Front-End Web Development – University of Moratuwa
- Python for Beginners – University of Moratuwa
- python programing – university of Moratuwa
- OOPs in Java Programming – Simple Learn
- Spoken and Writing English Course – Slega Academy
- A2-KEY exam – Cambridge College of British English

LANGUAGES

- English (Fluent)
- Sinhala (Fluent)

PROFILE

Enthusiastic Full Stack Developer with hands-on experience in front-end and back-end technologies. Skilled in building responsive web applications, database management, and API development. Passionate about clean code, problem-solving, and continuous learning.

WORK EXPERIENCE

SLT TELECOM

2025.8 – 2026.2

FULLSTACK DEVELOPER

Information Technology undergraduate with 6 months of internship experience at SLT Telecom working with Spring Boot. Skilled in full stack development including Java, MERN stack, PHP, and MySQL. Passionate about backend development, API design, and building scalable web applications.

PROJECTS

Smart Campus Operations Hub

2026

- Technologies: Java (Spring Boot), React.js, MySQL
- Designed and developed a production-inspired university web platform to streamline campus facility and asset management operations.
- Built a RESTful Spring Boot API following layered architecture with robust validation, error handling, and security best practices.
- Implemented booking workflows for rooms, labs, and equipment with real-time availability and scheduling support.

Internship Management System

2026

- Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Developed a centralized platform designed for university students to streamline the internship search, application, and management process.
- Implemented student profile and application tracking modules with full CRUD operations for managing internship listings and submissions.

Smart Food Management System

2026

- Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Built a full-stack food waste management platform to monitor, reduce, and report on food wastage across facilities.
- Implemented real-time inventory tracking with CRUD operations for food items, quantities, and expiry date management.
- Ensured secure data handling with proper input validation and backend logic using Node.js and Express.js.
